

# Emphatec VanGuard® - ACFT

## Fused AC Outlet Module

### Features

- Compact AC outlet for installation in control cabinets
- T-Class branch rated fuse and status indicating LED
- 120Vac, 10A
- Mounts on 32mm and 35mm DIN rails

The latest addition to Emphatec’s line of AC outlet modules is the ACFT version with on-board branch fuse. The fuse, a T-class type, provides a 10KA interrupting current rating. An LED provides indication that the fuse is healthy and the power is applied to the module.

The Emphatec VanGuard® AC outlet modules allow quick and easy installation of maintenance outlets in control cabinets and machinery. We currently offer a duplex outlet, a single outlet with a supplemental circuit breaker and a GFCI version. Other versions are in development.

### Ordering Data

Type	Order Number
Emphatec VanGuard® - ACFT Fused AC Outlet Module	330305

## Technical Data

### Emphatec VanGuard® - ACFT Fused AC Outlet Module

<b>Order Number</b>	<b>330305</b>
Voltage:	120Vac nominal
Current:	10A max
Fuse:	T-Class, branch rated Module provided with 10A, fast blow fuse
Temperature - operating:	-10°C to +40°C
Terminations:	26-12AWG, 0.5-0.6Nm torque, 6mm stripping length
Approvals:	cULus (UL508, CSA 22.2 No.14)
