

VANGUARD® - ACF5

Fused AC Outlet Module

- Compact AC outlet for installation in control cabinets
- 5x20mm supplemental fuse with status indicating LED
- 120Vac, 5A
- Mounts on 32mm and 35mm DIN rails

The VANGUARD® - ACF5 provides a single 120V outlet protected by an onboard 5x20mm fuse. The fuse is socket mounted under a protective, touch-safe cover. An LED provides indication that the fuse is healthy and the power is applied to the module.

The VANGUARD® - ACF5 outlet modules allow quick and easy installation of maintenance outlets in control cabinets and machinery.
